

Industrial Visits

Industrial visits are organized for students to bridge the gap between theoretical learning and practical training in real-life environments. Students understand the industrial practice and organizational hierarchy during industrial visits. Industrial visits provide opportunities for active/interactive learning experiments outside the classroom environment in addition to usual classroom learning.

Objective: To bridge a gap between academia and industry.

Outcomes: 1) To learn the working culture of the corporate field.

2) To know how the problems are solved by using modern tools & techniques.

Industrial Visit to GTPS, Uran

Industrial Visit to NRSC Hyderabad

Industrial Visit to ISRO, Bangalore

Summary of Industrial Visits
