Participation in the 9th Student Conference on “Emerging Trends in Computer Science and Applications”

Conference Dates: January 25, 2025

Venue: Indira College of Commerce and Science, New Pune-Mumbai Highway, Tathawade, Pune, Maharashtra, India

Students of the BBA Department, **Saumya Mahale and Teesha Agarwal**, actively participated in the 9th Student Conference on “*Emerging Trends in Computer Science and Applications*”. Under the guidance and motivation of **Dr. Rashmi Mishra (Assistant Professor, BBA Department)**, they presented their research paper titled “*Transformative Applications of Artificial Intelligence and Machine Learning in the Educational Sector*”.

The research explored the role of Artificial Intelligence (AI) and Machine Learning (ML) in education, highlighting their impact on teaching methods, classroom management, and administrative processes. It also addressed important challenges such as data privacy, biases in algorithms, and infrastructure needs.

This accomplishment showcases the synergy between our dedicated faculty and talented students, demonstrating our institution’s focus on fostering innovation and academic excellence. The students’ ability to present their work at such a platform reflects their potential, while the faculty’s mentorship highlights the support and expertise that drive our academic achievements.

By encouraging collaborative research and active participation in conferences, we continue to uphold our commitment to developing future-ready professionals and scholars.

Report Prepared by: Dr. Rashmi Mishra (Assistant Professor)
