REPORT ON CYBER SECURITY

Participants/Audience: BCA & BBA students and Intercollege Students

Venue: 6th Floor Auditorium

Date and time: 13/04/2026 & 10:00 AM

Organized by: BCA Department

1) Objective:

The objective of the seminar on **Career Opportunities in Cybersecurity** was to create awareness among students about the growing scope of cybersecurity as a career option. The session aimed to educate students about cybersecurity fundamentals, common cyber threats, the **importance of cybercrime awareness**, and various professional opportunities available in the cybersecurity domain. It also intended to guide students on how to prepare themselves for a career in this rapidly evolving field.

- To encourage students to develop cybersecurity-based solutions for real-world security challenges.
- To promote awareness of cyber threats, ethical hacking practices, and digital safety among participants.
- To enhance creative thinking, problem-solving abilities, and technical skills in the field of Cybersecurity.
- To provide a platform for students to present and demonstrate innovative cybersecurity ideas professionally before experts.
- To bridge the gap between academic learning and industry-oriented cybersecurity applications and practices.
- To inspire collaboration, teamwork, and innovation in the domains of Cybersecurity and Information Technology

2) Program Outcome:

- **Enhanced Cybersecurity Skills:** Participants gain practical knowledge of cybersecurity concepts, ethical hacking, and threat prevention techniques.
- **Improved Analytical & Problem-Solving Abilities:** Students develop critical thinking skills to identify, analyze, and solve security-related challenges.
- **Industry Exposure:** Interaction with experts and judges provides insights into current cybersecurity trends, tools, and industry expectations.
- **Collaborative Learning:** Encourages teamwork, communication, and knowledge sharing among participants in solving cybersecurity problems.
- **Recognition & Motivation:** Winning teams receive prizes and certificates, motivating students to pursue excellence in the field of Cybersecurity.
- **Awareness of Digital Safety:** Enhances understanding of cyber threats, online safety practices, and the importance of data protection.
- **Practical Implementation Mindset:** Encourages students to design secure, innovative, and feasible solutions for real-world cybersecurity challenges
