A. Y. 2024-25	Guest Session Report - BCA	Term: II

Date: 24/05/2025

Title of the Seminar: Application Development in the Real World: From Idea to Execution.

Date: May 13th, 2025, Tuesday

Venue: SPACS Jr. College Lab

Speaker: Mr. Kalpesh Nikam(*Consultant at Deloitte*)

Organized By: Department of BCA, PCCOER College.

Introduction:

The Department of BCA at PCCOER organized an enriching seminar titled “*Application Development in the Real World: From Idea to Execution.*” The session was designed to bridge the gap between academic learning and practical application development. It aimed to provide students with real-world insights into the end-to-end process of building impactful applications.

Objective of the Seminar:

The seminar aimed to bridge the gap between theoretical knowledge and practical implementation by providing students with a real-world perspective on how application development happens from ideation to final deployment.

Seminar Highlights:

- **Understanding the Application Lifecycle:**
Mr. Nikam began by outlining the stages of application development—from ideation and design to deployment and maintenance.
- **From Concept to Product:**
He emphasized the importance of validating ideas, choosing the right tech stack, and aligning development efforts with user needs.
- **Real-world Case Studies:**
The session included examples from real-world projects that highlighted challenges faced during development and the strategies used to overcome them.
- **Tools and Technologies:**
Participants were introduced to industry-standard tools and platforms commonly used in the development pipeline, including project management, UI/UX design, coding frameworks, and deployment strategies.
- **Interactive Q&A:**
The session concluded with a vibrant Q&A segment where students interacted directly with Mr. Nikam, seeking advice on their own projects and career paths in application development.

Conclusion:

The seminar proved to be a valuable learning experience for BCA students, offering a practical perspective on transforming an idea into a fully functioning application. Mr. Kalpesh Nikam's insights and expertise greatly enhanced the understanding of real-world application development among attendees. The Department of BCA looks forward to hosting
