

Civil Department's Magazine

"Civil-olve"

A.Y. 2025-26 Term-I

From HOD Desk

It gives me immense pleasure to present to you the latest edition of our Civil Engineering e-magazine, *Civil-olve*. The name itself reflects our vision- Civil Engineering is not just about structures and systems, but about continuous evolution. As the world faces new challenges in sustainability, resilience, and innovation, our discipline must evolve to meet them with creativity and responsibility.

This magazine is a platform where tradition meets transformation. It captures the spirit of our department rooted in strong fundamentals yet constantly adapting to modern technologies, interdisciplinary approaches, and global standards. Through articles, research highlights, student contributions, and creative expressions, *Civil-olve* embodies the journey of civil engineering from its classical foundations to its dynamic future.

I congratulate the editorial team and our students for their dedication and enthusiasm in bringing this edition to life. May *Civil-olve* inspire us all to think critically, innovate responsibly, and evolve continuously because civil engineering is not just about building structures, it is about building futures.

Warm regards,

Dr. Sameer S. Sawarkar

Magazine coordinators

Mr. Chetan Chavan

MSME's session delivered by Dr. Sahil Salvi at Govt. of Himachal Pradesh

Dr. S.S. Bobade attended ESTIC 2025 conclave at New Delhi.

One sided love

Or may be it's one sided love,

um I mean, whatever the poets might write

I want to see you everyday, your smile, your eyes, the way you say my name with that laugh, feels so nice.

BUT, you are with someone else, and I know my place.

I cannot cross those boundaries, can't run that race.

I am not jealous. No, just a well wisher in disguise, hoping in another lifetime, I we meet with different eyes.

May be in that world, it's me you find first, before you find her, before my love for you gets this "one sided" curse.

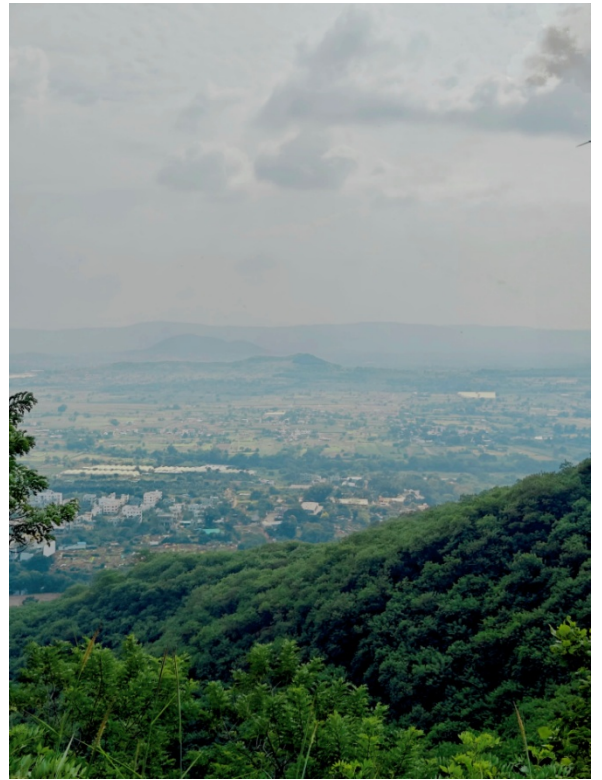

But for now, I'll just smile from afar, wishing you lifetime of happiness with whoever you are.
