

About GFG Student Chapters (Geeks For Geeks Student Chapter)

GeeksforGeeks Student Chapters are university-based community chapters creating a coding culture for students interested in Computer Science and other core technical competencies. GFG Student Chapter encourages the students to learn to build effective and optimized solutions for local businesses and their community as per the latest technology trends. GeeksForGeeks Student Chapters are launched in the whole country to create a strong network of igniting and enthusiastic technical minds.

PCCOE&R ACM Student Chapter

The GFG student chapter at PCCOE&R was established in the year 2022 and is an initiative of Geeks For Geeks. With the dual objective of creating a healthy competition among chapters and working toward a social cause, our chapter takes initiatives to organize different series of technical events that will provide both interesting technical content and career networking opportunities with placement preparation for students.

Student Branch Vision

We GFGXPCCOER as a community based chapter strive together to help students acquire knowledge and expand their learning by effective and optimized solutions, promising to serve excellence in all that we do with utmost dedication for a true spirit of learning.

Student Branch Mission

- To build a strong network of igniting young minds to create a change for the future.
- To amplify the impact and to bring together the peers to learn new skills, solve real-world problems, and build communities across the campus.
- To bring a revolutionary change in campus community with 3 LRE Formulation – LEARN-RESEARCH-EXPLORE.

Student Branch Details

Charter Date: August, 2022

Chapter type: GFG Student Chapter

Location: Pune, India

Email: gfgscpccoer@gmail.com

Faculty Sponsor: Mr. Gowind Suryawanshi

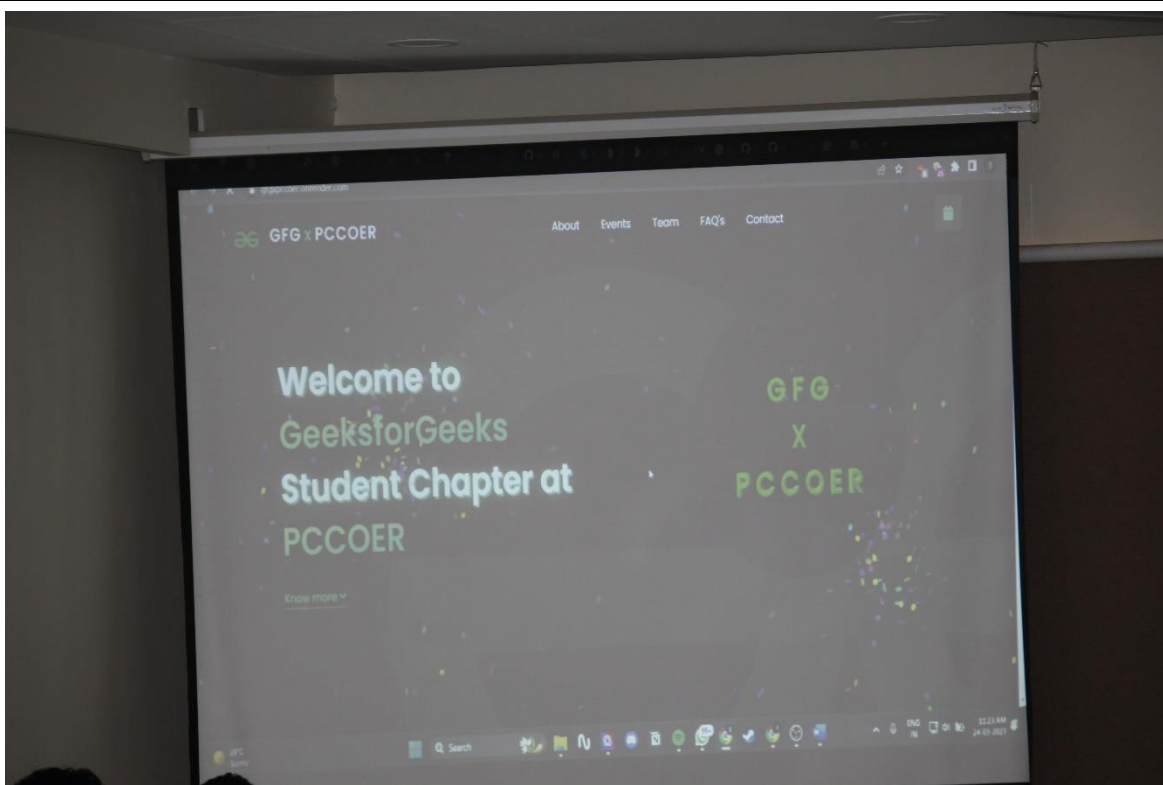

GFG Student Chapter PCCOER Info Session

Full Stack Development Bootcamp (2 days) by Soham Sattigeri (Tech Lead at Leazkart)

Website Launching of GFGXPCCOER during networking session

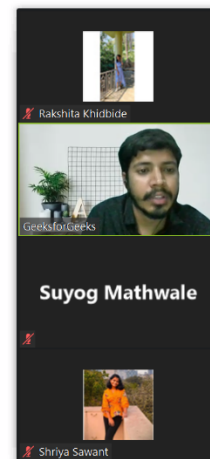

Roadmap To DSA event by Geeks For Geeks delivered by GFG DSA

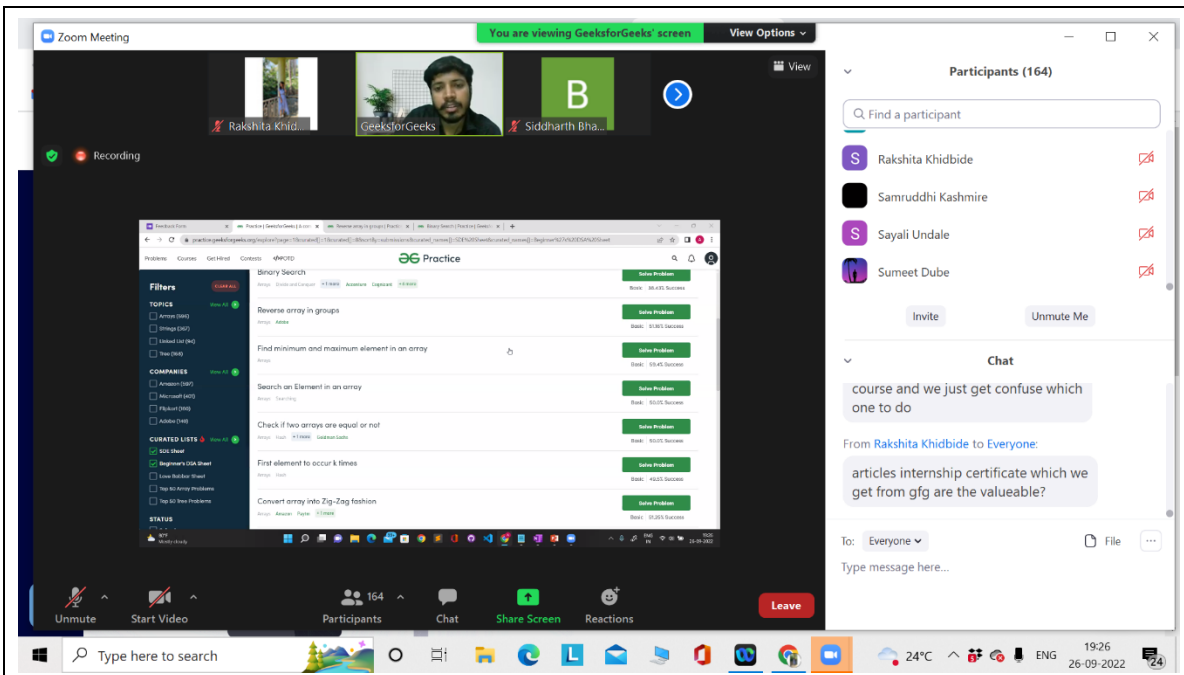

Mentor Mr.Ayush Shukla

Important Data Structures

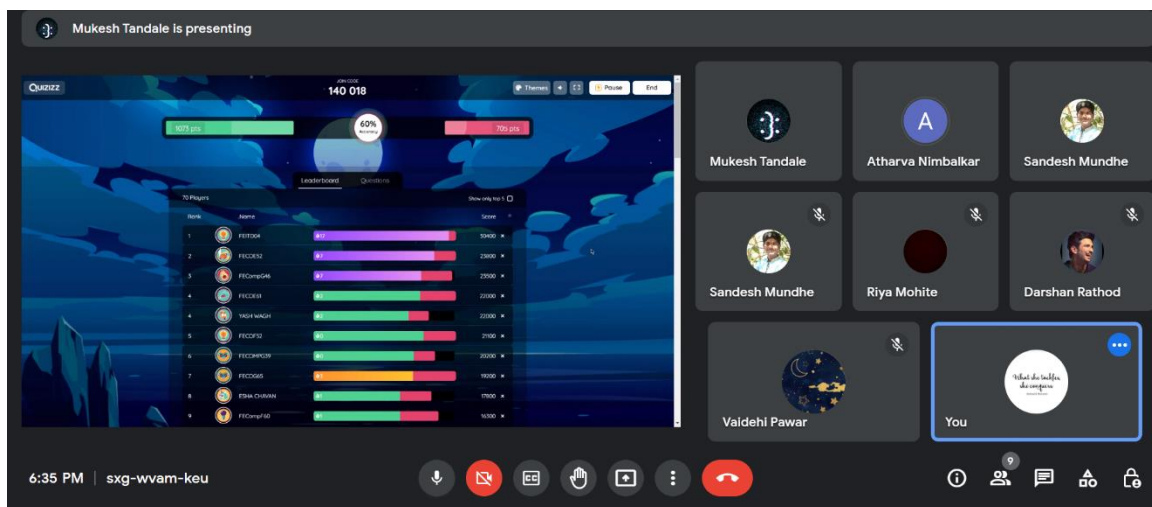

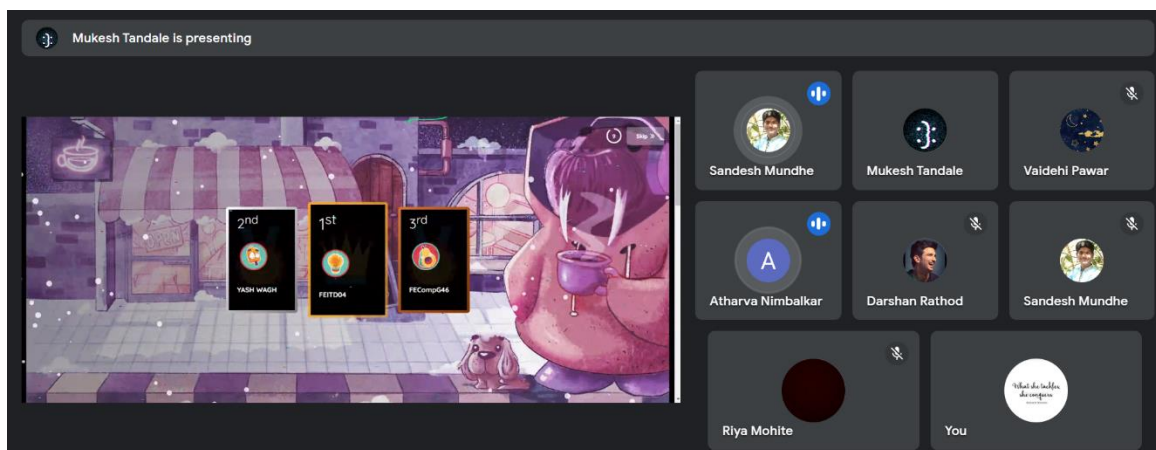

Arrays ✓
String
Linked List
Searching Algorithms → Binary Search.
Sorting Algorithms → Linear
Recursion ✓ -
Backtracking
Divide and Conquer Algorithms
Stack & Queue
Tree Data Structure
Graph Data Structure
Greedy Algorithms
Dynamic Algorithms

Bit Manipulation
Number Theory
Trie

QUIZ-IT-OUT (Technical Quiz Competition) for FE Students

National Level Coding Contest by GFG (AUTORUN) – Team Moscow

AUTO RUN **SEASON 1**

GFG STUDENT CHAPTER'S ANNUAL CODING CONTEST

Team MOSCOW (11th December'22)

Be Ready
8 PM to 10:30 PM

Know, Who is the Professor?

[Participate Now](#)

Geeks Summer Carnival 2023 (Easiest Coding Contest)

The **EASIEST CODING CONTEST** Ever!

Register, Solve, Win!
It's that Easy

March 27th
7 PM IST

GFGXPCCOER Team Meetups

Geeks For Geeks Summer Carnival
