

Language Lab

English language labs maximise proficiency in vocabulary, pronunciation, and language skills such as listening, speaking, reading, and writing. Students practice the different language modules individually on their personal computers after the teacher explains the language concepts and guides them through them. As a result, students gain an understanding of how native speakers pronounce English by listening to authentic recordings. It gives instant feedback to students so that they are aware of their mistakes

In the English Lab, students practice their English language skills to reinforce what they have learned in class. The teacher monitors the activities. Individuals differ significantly in their language aptitude. We provide students with a structured eLearning environment that is successful and reliable.

Objectives of the English Language Laboratory

- Reinforce listening, speaking, reading, and writing skills in English
- Enhance communication skills through Language
- Enrich Vocabulary and Grammar
- Introduce students to learner-centric activities that help them in self-assessment

Details of the English Lab

PCCOER uses the updated version of Globarena 2.0 Software for the language lab. Globarena Technologies offers solutions that combine e-Learning and human-led interventions that are delivered using ICT infrastructure. Globarena Technologies has also developed engineering subject-specific eLearning solutions to empower the faculty and students in their teaching and learning endeavours.

Interactive activities using the Language Lab

Active Listening and Listening based tasks

Speaking, Auto-speak, Group discussions, debates and conversations

Self-introductions and tips and practice

Reading Comprehension and Reading tasks

Writing Skills like Paragraph writing, Report Writing, Letter writing, situational writing

Grammar based practice exercises

Phonetics, root words and pronunciation of words

Comparison of pronunciation, rhythm, tone and intonation

Practice exercises based on Vocabulary enrichment

Synonyms, antonyms, word meanings and differentiation Role

Play, Conversation between the AI and Student
